

A TRIP THROUGH THE WORLD OF ROMANCE

“A sense for beauty”

In a time, in which the velocity of happenings threatens to overtake us, our longing for reflection grows day by day. Travelers bear the desire for safety and personal attention. The fact that there were people living here in our Romantikhôtel Schwarzer Adler 500 years ago, makes us feel the past even more.

During the renovation of our hotel, all of the above thoughts were given our full attention. We seized the opportunity to express ourselves as a first-class hotel, designed to cater for the guests' individual needs and wishes.

The reception on the first floor depicts the philosophy of our house: registration taking place at elegant writing tables in comfortable chairs. Rather than standing at the reception desk. Within the pleasant atmosphere of the area, one is surrounded by impressive paintings, antique chests combined with modern designer furniture and state of the art technology, giving a true feeling of past and presence.

“Romance at the beginning of the new millennium” was the subject of designing our rooms and suites. The happy meeting of two of the world's most renowned firms, SWAROVSKI and VERSACE, made it possible to create a unique world: fabulous crystal bathrooms and lustres made by Swarovski, with gold decorated furniture, material and lamps made by Versace, as well as Tyrolean wooden furniture and windows glazed with lead. Our guests enjoy romantic evenings in front of the fireplace or take a relaxing bath in the whirlpool. All our rooms are different. Most of them are dominated by a certain motto, e. g. Emperor Maximilian, Emperatrice Maria Theresia, Sissy, Crystal, Versace, etc. Functionality and first class comfort are also very important. The mattresses, for example, were manufactured according to the latest recognitions, all rooms are equipped with air conditioning and in the suites ISDN connections were installed.

To step out on the roof terrace is also a very special experience. All at once, you find yourself on the top of Innsbruck, enjoying wonderful views over the impressive skyline of the mountains. Everywhere you look, the pure nature of Tyrol is present.

Our well-being spa “Crystal Spheres” caters for relaxation and health consciousness. The rigors of daily life are soon forgotten when observing the fascinating play of the spectral colours of the spheres. They are also known to be good for mind, body and soul, due to their mystique. Our resident masseurs are also on hand.

The first class cuisine has always been a brand of the Schwarzer Adler. We exclusively use fresh products which are, if possible, brought in by farmers of our immediate surroundings. Therefore, our dishes change according to the seasons. Our wine cellar, which offers a fine selection of international brands, includes an excellent choice of Austrian wines, renowned as one of the best in Innsbruck.

Fragrant flower arrangements, soft light, romantic motives and luxurious decorated tables reflect our philosophy: to give to guests, who appreciate beauty and an extraordinary atmosphere to live in.

There is a big variety of restaurant rooms. The historic cellar with its impressive cross vault, the Andreas Hofer Hall with its precious paintings as well as four different, very comfortable Tyrolean "Stuben", which are still preserved in their original style.

The Haspinger Hall on the first floor is reserved for conferences. It is flooded by daylight, gives a great view to the mountains "Nordkette" and fulfills every wish concerning modern conference technique.

Referring to breaks and special wishes, our flexible staff is naturally at your disposal.

Another experience to enjoy is the hotel stretched limousine. At 7.5 meters long offering the ultimate comfort, its former proud owner was no less than the American superstar Madonna!

The limousine is available to hire for city tours, airport transfers, etc.

This concludes our trip through the Romantik Hotel Schwarzer Adler. Renovated on the turn of the millennium, to cater and care for the modern traveler, who in between the pace of life in the 2000's, retains a passion for beauty and style and takes time out to "smell the roses".
