

Crystal Spheres Wellbeing

The Romantikhôtel Schwarzer Adler in Innsbruck, a 500 year old historic hotel in the heart of the Alps, has set up a new romantic highlight. The new wellbeing spa "Crystal Spheres – body.mind.soul" offers a crystal island of regeneration to its hotel guests.

Like the 32 rooms and 7 suites, among them the suite "Crystal Dream" was voted as one of the most beautiful suites in the world (Wirtschaftswoche, 10/2000), the new wellbeing spa is also characterized by Swarovski crystals. Crystals seem to be made for inspiration, mystique and relaxation. The fascinating play of the spectral colours inspire one to forget the rigors of daily life and encourages a recharging of body mind and soul.
